To find the dealer nearest you, call 1.800.327.3086 or visit our website www.CWS.cc

Icon Series Aluminum Impact Windows

For over 30 years, Custom Windows & Doors has been manufacturing windows in Ocala, Florida designed and constructed specifically for the Florida market. Our 225,000 square feet of modern manufacturing ensures that we achieve superior levels of impact resistance, safety and security. Throughout that time we have been proudly innovating and introducing products that meet or exceed the most stringent coastal requirements, including full High Velocity Hurricane Zone (HVHZ) ratings. The Icon Series is an example of our innovation. We build in all of the newest advances in engineering and technology while never compromising on quality. This ensures that the Icon Series from Custom Windows & Doors not only fits better and looks better, it also performs better.
